

Recommended Resources

Category: Books
Recommendation: The Action Bible

The Action Bible is geared toward younger readers. It is a full color illustrated hardcover book. It contains 215 stories from the bible in chronological order making it very enjoyable and easy to read and understand. It is not a bible, but more a bible story book, or the bible as a graphic novel. It does not quote the entire bible word for word but it does tell the stories accurately.

The whole book is drawn by Sergio Cariello who is a Marvel and DC Comics artist. The text is clear and easy to read in a comic book bubble type format. Reading the bible as a graphic novel makes it come alive for many younger readers.

The Action Bible website also includes other bible resources for young readers, including Action Bible versions of Study Bibles.
